

GBU35005 THRU GBU3510

Glass Passivated Bridge Rectifiers		Reverse Voltage - 50 to 1000 Volts Forward Current - 35 Amperes							
Features • Glass passivated chip • Low forward voltage drop • Ideal for printed circuit board • High surge current capability • Meet UL flammability classification 94V-0		GBU .1	.161 (.134 (26 (3.2)*45° Chamfer				139 (3.53) 133 (3.37)	(RoHS COMPLIANT
 Mechanical Data Polarity: Symbol marked on body Mounting position: Any Note: Products with logo or hor are made by HY Electronic (Cayman) Limited. Applications General purpose use in AC/DC bridge full wave rectific for SMPS, lighting ballaster, adapter, etc. 	ation,	.4 .3	232 (5.9) 213 (5.4) 01 (10.2) 92 (9.80) 100(2.54) 085(2.16) .080 (2.0 .065 (1.6)	+ ~ 3) 5) -210 -210 -210 -210 -210 -210 -210 -210 -210 -210 -210 -210 -210 -210 -210 -210 -210 -100 		.752 (19.1) .720 (18.3) .080 (2.03) .060 (1.53) .720 (18.29) .680 (17.27) .47 (1.2) .35 (0.9)	.106 (2 .091 (2 .091 (2	2.3)

ALL specifications and data are subject to be changed without notice to improve reliability function or design or other reasons.

HY makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the cotinuing production of any product. To the maximum extent permitted by applicable law, HY disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on HY's knowledge of typical requirements that are often placed on HY products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application.Parameters provided in datasheets and specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify HY's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, HY products are not designed for use in medical, life-saving, or life-sustaining applications or for any other applications in which the failure of the HY product could result in personal injury or death. Customers using or selling HY products not expressly indicated for use in such applications do so at their own risk.Please contact authorized HY personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of HY. Product names and markings noted herein may be trademarks of their respective owners.
